

The Hygiene Pallet can handle every situation from a freezing cold store to a baker's store room.

THE FACTS:	
STANDARD SIZE:	1165mm x 1165mm
CONSTRUCTION:	Extrusion flow molding
MATERIAL:	High Density Polyethylene
WEIGHT:	34 kgs (Nominal)
SWL:	Beam racking: 2 tonne Drive-in racking: 1 tonne
COLOR:	Black as standard
TOLERANCE:	± 5mm
FORKLIFT:	4-way entry
PALLET JACK:	2-way entry
CLEANABILITY:	99.9987% - Achieves greater than 4-log reduction over standard timber pallets (Independent laboratory tests)
SURFACE:	Unique interlocking surface

More than tough enough, the heavy duty Hygiene Pallet can handle all the knocks of transporting and shipping. It has a very long working life of many hundreds of trips, so is very economical in use.

Simulated demonstration.

Heavy weight products need extra strong storage and handling. The tough Hygiene Pallet's heavy duty specifications offer just that.

In a rigorous testing programme, the Hygiene Pallet was dropped many times from 25 feet without any major damage to the pallet body. (Recorded on video as proof.)

Vented for maximum air circulation

Fitted with rubber grommets for anti-slip load retention

HEAVY DUTY HYGIENE PALLET

Hygiene Pallet's clean, strong body will not tear or rip soft pack loads, because there are no broken boards or protruding nails.

NEW FLAT DECK 'PRODUCE' PALLET
 For maximum air circulation and cleanliness in handling fresh produce... with all the benefits of a flat deck heavy duty pallet!

Manufactured by The Victor Smorgon Group Vicfam Plastics Division

FOR MAXIMUM PROTECTION, STRENGTH, DURABILITY AND COST SAVINGS ...

Moulded in high density polyethylene with no cracks or crevices to harbor bacteria. The hygiene pallet has been specially made for the food and pharmaceutical industries. It can be used in both drive-in and beam racking.

HEAVY DUTY HYGIENE PALLET

The Hygiene Pallet can be chemically sterilised, steam cleaned or hot washed without any effect to its corrosion proof body.

Where a super clean environment is mandatory, Hygiene Pallet avoids the problems caused by conventional pallets.

Hygiene Pallet's one-piece construction helps prevent contamination at source. No hard-to-clean places to harbor waste.

The Hygiene Pallet, due to its heavy duty construction, can also handle excessive loads.

Although designed for the pharmaceutical and food industries, the Hygiene Pallet has multiple uses in many other industries.
